

rent testers

Our Test Automation QA engineers also work with a number of open source tools such as Junit and NUnit.

TEST PROCESS CONSULTING AND TCOE

Our Testing Center of Excellence brings QA Experts to your projects, applying state of the art software testing techniques to your projects. Our testing specialists will provide your QA organization with best practices identified. These will be applied across all projects assigned to your project. We'll help you establish testing strategies, processes, infrastructure, tools, and techniques to set up governance, metrics, SLAs, communication frameworks, and knowledge management plans. These will address your resourcing demands and create a centralized delivery model.

We also leverage our partner tools like IBM® Rational Software, HP® Interactive, Borland®, and Compuware®. These partnerships enable SQA Solution to keep abreast of the latest test automation tools and packages. We can assist you to:

- **Test earlier, smarter, and faster** – Increase your application quality by using SQA Solution's experienced TCoE experts throughout your application development cycle.
- **Find critical issues earlier** – Accelerate your Time-to-Market by preventing delays that are caused by issues normally found late in the cycle.

- **Increase Application Quality**
- **Accelerate Time-to-Market**
- **Minimize Testing Costs**

- **Pay only for what you need** – Minimize testing costs by leveraging SQA Solution's On-Demand delivery model.

How SQA Solution Can Help You
