

rent testers

SQA Solution offers a full suite of tactical and strategic Facebook Application testing solutions.

FACEBOOK APP TESTING

Facebook currently has almost one billion users, and it continues to grow. With such highs, it's hard to speculate what the end of 2012, and beyond, holds for Facebook. However, you don't need a crystal ball to see that one area of intense focus will be on Facebook apps. Launching high-quality apps and getting to market quickly is becoming increasingly difficult. Whether a solution involves automated testing tools or manual testing, you'll need a solid strategy to release a competitive Facebook App that works across platforms.

PROVIDING EXPERTISE

SQA Solution's experienced team can integrate with your team to seamlessly enhance results and shorten the project time of your Facebook application testing project. We offer a full suite of tactical and strategic Facebook application testing solutions and, depending on your specific needs, we will support your project with all or part of the testing effort.

Our comprehensive Facebook application testing services will give you confidence that your application will function as intended on different platforms with varying screen sizes, resolutions, internal hardware, operating systems, and mobile devices.

- Increase Application Quality
- Accelerate Time-to-Market
- Minimize Testing Costs
