

rent testers

We'll help you select and purchase testing tools; define performance targets and metrics; and tackle web test design, development, and execution.

TEST AUTOMATION

SQA Solution provides automation solutions. We help organizations realize the benefits of test automation by increasing your ability to maximize test coverage. Then, over time, we help you to minimize the costs associated with testing by eliminating the human element of manually executing test suites. Our automation expertise can help you with automating everything from individual component testing to full regression suites. Depending on your automation goals, SQA Solution can work with you to create customized solutions.

- Increase Application Quality
- Accelerate Time-to-Market
- Minimize Testing Costs

CREATING SOLUTIONS

SQA Solution's experts are experienced and have a strong knowledge base leveraging the following automation tools.

Proprietary Tools:

<ul style="list-style-type: none"> • HP QuickTest Professional • IBM Rational Functional Tester • LabVIEW • Maveryx • Oracle Application Testing Suite • QF-Test • Ranorex 	<ul style="list-style-type: none"> • Rational robot • Selenium • SilkTest • eggPlant • EiffelStudio AutoTest • SOAtest • TestComplete • Testing Anywhere 	<ul style="list-style-type: none"> • TestPartner • Time Partition Testing (TPT) • Tosca TestSuite • Visual Studio Test Professional • WATIR • Telerik Test Studio
