Our experts can help your organization to stay in compliance and meet your contractual obligations.

## REVITAS / IMANY CONTRACT MANAGEMENT AND GOVERNMENT PRICING

To stay in compliance with government regulations, contract management organizations in the life science industry are undergoing significant challenges. They must ensure that their software systems are compliant with healthcare reform changes and other government mandates. Consider, for example, how unplanned 340B Drug Pricing Program changes had to be implemented quickly in order to stay in compliance. These types of challenges can put a significant burden on QA teams as well as contract management organizations.

To implement these changes, you may turn to your software vendor and rely on them to provide you with bug-free software. However, this may not be enough. SQA Solution will independently validate the changes and ensure that you have quality of a release. Our experts can help your organization to stay in compliance and meet your contractual obligations. We help you to maximize the profits of your contracts and avoid penalties imposed by the government. By partnering with us, your organization can realize better visibility, greater ROI, and a more streamlined and automated

- Increase Application Quality
- Accelerate Time-to-Market
- Minimize Testing Costs

Revitas (formerly iMany) contract management testing and validation process. Let us provide your contract management organization with a leading Revitas contract management testing solution!

## CREATING SOLUTIONS

Our team can assist Pharma Manufacturing Contract Management Organizations to develop, implement, and maintain testing strategies.

We can also validate pricing calculations, reports, and verify that exports meet State and Federal Government mandates. Our solutions include:

- **CMS Testing**
- **CARS Testing**
- **CMED Testing**
- **Valid Data Testing**
- **Healthcare Reform Changes Testing**

We've worked with global pharmaceutical companies specializing in the development, production, and marketing of generic and proprietary branded pharmaceuticals as well as active pharmaceutical ingredients.

SQA Solution's consultants are experienced with full implementations of new compliance requirements into Revitas Government Pricing Systems. We have hands-on expertise delivering:

- Test Strategies & Test Plans designed specifically to address your project needs.
- Test cases and test scripts to test changes to existing price calculations, such as ASP, AMP, NFAMP, PHS, FCP, and IFF.
- Testing solutions for implementation of additional application functionality such as FSS modules and Alerts.
- Medicaid testing.
- Revitas CARS testing.
- EDI 844, 845, 849 testing.
- Integration of Revitas with SAP and other ERP systems.
- Integration of Revitas with other trading partners via EDI.

We can also deliver verification of the following:

- Enhancements and automation of data integration.
- Data reconciliation between GP and source systems.
- Historical data conversion.
- Enhancements to existing interfaces to bring in new data fields.
